HH Painting

Lifetime Workmanship Warranty

Our workmanship: for as long as you own the home

We cover defects in our workmanship on the surfaces we painted: peeling, blistering or flaking caused by our prep or our application. Interior and exterior jobs are covered the same way. The warranty does not transfer to the next owner.

Your paint package (Sherwin-Williams): walls, ceilings, trim and siding

Package	Paint	Peeling, flaking or blistering	Excessive fading, chalking or mildew
Standard	SuperPaint (interior or exterior)	5 years	2 years
Premium	Duration (exterior) / Duration Home (interior)	10 years	5 years
Lifetime	Emerald (interior or exterior)	As long as you own the home	7 years

"Excessive" means fading or chalking that is clearly uneven or worse than the rest of the painted surface, confirmed on our inspection visit, or mildew that comes back within 30 days of a gentle wash. If it is covered, we repaint the affected area. After a package's years run out, peeling caused by our prep or application is still covered under our workmanship warranty.

Cabinets: covered by our workmanship warranty. The cabinet coating carries its maker's own warranty.

What a covered repair costs you

Nothing. Labor and materials are free, on the affected area only.

When it starts

Before we finish, we walk the job with you and schedule any touch-ups. The warranty starts after a signed contract, that approved final walkthrough and payment in full.

What it does not cover

- Damage from outside causes, such as leaks, moisture, structural problems or impact
- Normal wear, including sun fading, chalking and mildew after the time limits above
- Work done by others
- Epoxy floors. They have a separate 1-year workmanship warranty.

When coverage ends on a surface

- Someone else repaints it, or
- Someone other than us pressure washes it at high pressure without our OK.

Care tip

Gentle washing (a garden hose or a soft wash) is fine and helps keep mildew away. Ask us before any high-pressure washing.

How to make a claim

Text or email photos of the problem to **(352) 354-2939** or **contact@hhpaintingfl.com**. We visit within 7 days and repair within 30 days.
